The Journal of Air Law & Commerce

Announces

The Thirty-five Year Index

The rapid growth of the aviation industry with a parallel development of air law, as well as the *Journal's* existence at two law schools has required compilation of the cases and issues to which the *Journal* has addressed itself over the past 35 years.

As you may recall, work on the 35-year cumulative index has been in progress for a number of years; it has involved the efforts of several boards and many man-hours. The Board of Editors is, therefore, pleased to announce the near-completion of the task.

After completing a final cost analysis, we found that publishing costs will be significantly less than previously anticipated. This reduced cost plus an unanticipated demand allows the *Journal* to offer this useful addition to your library at our cost of \$5.00.

The anticipated distribution date for the Index is the spring of 1970. In order to insure that you receive a copy, write indicating the number you wish to purchase to:
