Published by

SCHOOL OF LAW, SOUTHERN METHODIST UNIVERSITY

The *Journal* prints matter it considers worthy. However, publication does not necessarily imply agreements by the editors or the publisher with the opinions expressed in the articles.

The *Journal* is presently attempting to establish a library consisting of all the major works in the field of air law and related areas. It is our hope that with such a library, Southern Methodist University School of Law, and more particularly the *Journal*, will become a center for those interested in studying and researching in air law and commerce. The creation of the *Institute of Aerospace Law* has done much in this direction, and in order to continue to improve the quality of our publication and to provide greater services to the air and legal communities, the Editors feel there is a need for a more complete collection of the works in this field.

At present the *Journal* is not in a position to purchase all the books that have been written in the field, and the Editors are in need of suggestions of available and appropriate books in the area. We are therefore requesting anyone who has written or edited a work in this field and who thinks it would be a valuable addition to the library to donate a copy to our library. Your contribution will be gratefully received and acknowledged in an appropriate label placed in the front of the book. If the response is great enough, we hope to be able to obtain space in the new library just completed at the Law School.

Anyone who may have suggestions concerning books which would be available, or who cares to donate to the library should address their correspondence to:
