DOMESTIC

Dann, *Claims Handling for the New Generation of Jet Aircraft*, 30 FED.
B.J. 22 (1971).

The author discusses the possible increases in claims that may arise from the increased use of the 747 jetliner and other new generation machines. He offers recommendations to insurance adjustors who will handle the growing number of claims.

Nanda, *Defining Space Liability*, 7 TRIAL 42 (1971).

This article emphasizes the need to develop legal principles for determining liability for outerspace activities. It notes the current efforts in the international community to prepare such principles.

Brooks, *New Developments in Earth Satellite Law*, 65 NW. U.L. REV. 759 (1970).

The author predicts the growth of practical space satellite applications, particularly earth resources satellites in agriculture, forestry, mineral resources and others. He considers international use and misuse of resource sensing satellites and the resulting advantages and dangers.
